

Product Name: EuroChem Wetter 1000
APVMA Approval No: 91868 / 133744

Label Name:	EuroChem Wetter 1000
Signal Headings:	READ SAFETY DIRECTIONS BEFORE OPENING OR USING
Constituent Statements:	ACTIVE CONSTITUENT: 1000 g/L NONIONIC ALCOHOL ETHOXYLATES
Mode of Action:	
Statement of Claims:	A NON-IONIC 100% WETTING AGENT, FOR THE IMPROVEMENT OF SPRAY COVERAGE WHEN USING AGRICULTURAL CHEMICALS
Net Contents:	20L to 1000L
Restraints:	
Directions for Use:	This section contains file attachment.
Other Limitations:	
Withholding Periods:	
Trade Advice:	
General Instructions:	GENERAL INSTRUCTIONS NOTE: Where product labels recommend the addition of a non-ionic wetting agent as a percentage (%) dilution, add 100 mL EuroChem Wetter 1000 per 100 litres of spray mixture to give 0.1%, 250 mL to give 0.25% or other rates as required using these examples.

	MIXING For wettable powders and water soluble products, add EuroChem Wetter 1000 in water before adding the agricultural chemical to the spray tank. For emulsifiable products, add EuroChem Wetter 1000 after a good emulsion is formed.

Resistance Warning:	
---------------------	--

Precautions:	
--------------	--

Protections:	PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT Harmful to fish. DO NOT contaminate ponds, streams, rivers and watercourses with chemical or used containers.
--------------	--

Storage and Disposal:	KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a dry, cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple-rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product. For refillable containers: Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.
-----------------------	--

Safety Directions:	Avoid contact with eyes and skin. When using or preparing product for use, wear overalls buttoned to the neck and wrist, chemical resistant gloves, goggles and safety shoes. Wash hands after use and before eating, drinking or smoking.
--------------------	---

First Aid Instructions:	If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 13 11 26, New Zealand 0800 764 766. If swallowed, rinse mouth with water. Give several glasses of water to drink. If vomiting occurs, give more water to drink and seek medical advice. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor. If skin contact occurs, remove contaminated clothing and wash thoroughly with soap and water. If irritation occurs seek medical advice.
-------------------------	---

First Aid Warnings:	
---------------------	--

DIRECTIONS FOR USE:

EuroChem Wetter 1000 can be used where the addition of a surfactant is required or recommended on the agricultural chemical label. Variations in conditions of use can require some changes in the amount of Eurochem Wetter 1000.

SITUATION	RATE/100L	CRITICAL COMMENTS
Non-Selective Herbicides FOLIAR ACTIVE	25-100 mL	Use the higher rate on waxy, hairy or hard to wet surfaces. Increase rate for dry soils.
Selective Herbicides IN CROP USE	25-100 mL	Use when a surfactant is recommended on herbicide labels. Use the higher rate on waxy, hairy or hard to wet surfaces.
Soil Residual Herbicides	100-400 mL	When applied with soil residual herbicides to standing weeds, add EuroChem Wetter 1000 to thoroughly wet foliage. Consult product labels for individual recommendations.
Horticulture INSECTICIDES, FUNGICIDES AND GROWTH REGULATORS	40-100 mL	Vary rate according to volume and nature of the target. Use only when recommended on product labels.
Paraquat and diquat Herbicides Important when grasses are the major target	25-100 mL	Vary rate according to spray volume. Select rate in accordance with product labels.
Pasture Topping For use with Glyphosate CT	125 mL	
Watering of Turf and Dust Abatement As additive to water	40-100 mL	Use the higher rate when watering turf.
Fire Fighting Water tanker Knapsack	5 mL/100 L 2 mL/15 L	In the field EuroChem Wetter 1000 has the advantage of less weight to carry compared with less concentrated surfactants and of being non-flammable. It increases the wetting power of water which assists in quick control and mopping up of fires. It is of particular value where water may not be readily available, where a less drenching spray is needed, and a tank full will cover a bigger area.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.
